

Ethan Maher

ethanamaher@gmail.com | linkedin.com/in/ethan-maher | github.com/ethanamaher

Education

The University of Texas at Dallas, BS in Computer Science

May 2025

Experience

Incoming Research Assistant

May 2025 - Current

The University of Texas at Dallas, SysSec Lab

Projects

Todo-Sidebar.nvim | github.com/ethanamaher/todo-sidebar.nvim

May 2025

- Neovim plugin to recursively scan a Git repository for TODO, FIXME, and other customizable keywords, presenting results in a sidebar window
- Utilizes git grep for efficient file scanning inside files tracked by git

Better-Git-Blame.nvim | github.com/ethanamaher/better-git-blame.nvim

May 2025

- Developed a custom Neovim plugin for enhanced git history visualization, allowing users to analyze the commit history of a selected code block
- Leveraged git log's regex search to extract relevant diffs across different commits using Telescope and provide interactive diff views.

Attendance Tracker

Feb 2025

- Developed and designed the backend for a full stack class attendance tracking solution as part of a UTDallas-sponsored Capstone Project
- Engineered a MySQL database to facilitate student, class, and professor information as well as to track attendance information for students

TUIpe Racer | github.com/ethanamaher/tuiperacer

Oct 2024

- Designed and built a terminal-based typing test in Go to track typing speeds
- Created an interactive Terminal User Interface (TUI) using the Bubbletea and Lipgloss libraries
- Integrated MySQL to persistently store high scores, enabling leaderboard tracking and user progress analysis

Multi-Neighborhood Cellular Automata Sim | github.com/ethanamaher/mnca_simulator

Sep 2024

- Developed a Golang simulation to model multi-neighborhood cellular automata using the Ebiten 2D game engine
- Optimized performance through concurrent state calculations using goroutines

Activities

Tex Mechs Keyboard Roundup

- Assisted in organizing a keyboard convention/meetup that hosted approximately 400 attendees at the University of Texas at Dallas
- Coordinated with overseas companies to produce merchandise for the event

Skills

Programming Languages: C++, Java, C, Python, Golang, Lua

Software: Bash, Vim, Git, Adobe Creative Cloud, Visual Studio, *nix, VMWare
