Education

The University of Texas at Dallas, BS in Computer Science

May 2025

Relevant Coursework: Software Engineering, Data Structures and Algorithms, Operating Systems, Computer Networks, Digital Forensics, Cyber Attack and Defense, Computer Architecture, Digital Logic

Experience

Andretti Indoor Karting & Games

Sep 2022 - Jul 2024

Team Member

Projects

Attendance Tracker

Feb 2025

- Developed and designed the backend for a full stack class attendance tracking solution as part of a UTDallas-sponsored Capstone Project
- Engineered a RESTful API to facilitate data retrieval and integration with the frontend

TUIpe Racer

Oct 2024

- Designed and build a fast-paced typing test in Go that challenges users to correctly type randomly selected English words as quickly as possible
- Created an interactive Terminal User Interface (TUI) using the Bubbletea and Lipgloss libraries
- Integrated MySQL to persistently store high scores, enabling leaderboard tracking and user progress analysis

Visualizer for Multi-Neighborhood Cellular Automata

Sep 2024

- Developed a Go-based simulation to model multi-neighborhood cellular automata using the Ebiten 2D game engine
- Optimized performance through concurrent state calculations using goroutines
- Implemented concurrent state calculations using goroutines, significantly optimizing simulation speed

Activities

Tex Mechs Keyboard Roundup

- Assisted in organizing a keyboard convention/meetup that hosted approximately 400 attendees at the University of Texas at Dallas
- Coordinated with overseas companies to produce merchandise for the event including lanyards and t-shirts

Skills/Interests

Programming Languages: C++, Java, C, Python, Golang

Software: Bash, Vim, Git, Adobe Creative Cloud, Visual Studio, *nix, VMWare

Interests: Capture-The-Flag Competitions, Keyboard Building, Reverse Engineering
